The Colours of Progress

CR

## CR 2

**Achieving optimum compaction of sand, gravel, asphalt and paved surfaces? No problem with the new, powerful Weber MT soil compactor CR 2. Weber MT engineers have designed the CR 2 in such a way that it is well suited for asphalt compaction.**

**When it comes to compacting paving stones the CR 2 can be equipped with a self-tightening polyurethane pad.**

**On sand or gravel the CR 2 achieves a compacting depth of 35 cm (14") – depending on ground conditions.**

### The advantages of the CR 2

- Forward and reverse travel.
- Infinitely variable hydraulic control for accurate operation.
- Throttle control lever at the guide bar.
- Robust protection frame to prevent the engine from getting damaged. Diesel version with engine guard.
- Low maintenance due to self-adjusting centrifugal clutch.
- Large, fixed lifting eyes for easy loading – also by means of forklifts.

### Available optional extras

- Water sprinkler system for asphalt compaction.
- Polyurethane pad.
- Wheel kit.

### The CR 2 and its technical data.

Type		CR 2	CR 2 R	CR 2 Hd
Operating weight according to CECE	kg (lbs)	146 (322)	131 (289)	131 (289)
Centrifugal force	kN (lbs)	25 (5620)	25 (5620)	25 (5620)
Frequency	Hz (rpm)	100 (6000)	100 (6000)	100 (6000)
Operating width	mm (in.)	450 (18)	450 (18)	450 (18)
Engine		Diesel	4-stroke gasoline	4-stroke gasoline
Engine type		Lombardini 15 LD 225	Robin EY 20	Honda GX 160
Engine output according to DIN 70020	kW/HP	3,5/4,7	3,4/4,6	4,0/5,5
